

DFG
Projektnummer:
425899996

Date: 24 October 2022

A) Hiwi position (8-10 hours a week) for assisting in data collection, recruitment, project management tasks (behavioral measurements, 7T MRI, MEG)

B) Master thesis opportunities

We would like to hire a research assistant as soon as possible, preferably with a background in cognitive/clinical neuroscience, psychology, medicine, biology, computational neuroscience or relevant fields.

The workload will be on:

- Data collection: neuropsychological tests (behavioral measures), assisting in a cognitive training session, 7T MRI
- Recruitment, project management tasks

Populations to work with:

- Healthy older adults (60-79 years), young adults (18-34 years)

Skills required:

- Fluent knowledge of German and English is required.
- Good communication, ability to work in a team and interact with older / young adults
- reliability & competency in managing administrative and recruitment tasks independently

Interest or experience in cognitive (e.g. human memory) or clinical (e.g. neuropsychology, cognitive assessment) neuroscience, psychology-medicine, or neuroimaging is a plus.

Working hours: around 8-10 hours per week. Possible to offer more hours.

Minimum duration: 7 months. It can be renewed based on demands and availability.

The Hiwi will be working for the IKND (Institute of Cognitive Neurology and Dementia Research), in the SFB 1436 B02 project focused on cognitive training, memory – mnemonic discrimination, vision and neuroimaging (7T MRI, MEG)

<http://www.iknd.ovgu.de/SFB+1436/B02.html>

Application. Please send:

- 1) your CV
- 2) a short email text body explaining your motivation and experience (e.g. in cognitive/clinical neuroscience, recruitment, or in coding e.g. in MATLAB or Python if you have any (not necessary))

Email to: panagiotis.iliopoulos@med.ovgu.de

Title: "SFB B02 Apply - Hiwi data collection 10/2022", Put in CC: br2566@columbia.edu

Applications are accepted as long as the positions are not filled. Feel free to contact us for more info. Concise applications are very welcome.

Looking forward to hearing from you.

Sincerely,
Panagiotis Iliopoulos, Boyan Rong (PhD students)
